

INFORMATION FOR CONTRIBUTORS

Manuscripts to be published in *Acta Linguistica Hungarica* should be submitted through the **Editorial Manager**, an online manuscript submission and review system, which can be found at the following url: <http://www.editorialmanager.com/aling>. The following information should be provided on the cover page of the manuscript: the **title** of the article (or, in case of reviews, the title of the book under discussion, the name of the publisher, the place and date of publication as well as the number of pages), the **author's full name**, **affiliation**, **email address**, and an **abbreviated title** of the paper (not exceeding **45 characters** including spaces). The manuscript should be accompanied by a list of **five keywords** and an **abstract** of about **100 words**. Only original papers will be published.

After a paper has been accepted for publication, the finalised files can be submitted for typesetting in **doc** format (e.g., Word, OpenOffice Writer, etc.) or standard **L^AT_EX**. In addition to the source files, please *also* send the **pdf** version of your final manuscript. If other word processing software is used, let this software create a doc or L^AT_EX conversion and submit these together with the original source files. L^AT_EX users are requested to send *all* their original source files (tex, sty, bib etc.) and the pdf version.

Tables and figures should be numbered consecutively and provided with concise captions. Please indicate the preferred position of the table or figure in the text by inserting a line "Insert figure XX around here". Please bear in mind that all tables and figures eventually have to fit the following text area, either portrait or landscape: **124 mm × 180 mm**. Font size of tables/figures: **9 pts**. The paper will be printed in black & white. Please make sure any illustrations are still meaningful when printed in black & white. Graphics should be supplied in electronic form or as a clean, high-quality hard copy to enable scanning if necessary. We accept the following graphics file formats: EPS, JPG, PSD, TIFF. These files must have a final resolution of at least **300 dpi**. **All graphics files must be submitted separately from the document file**. Carefully check all graphics for errors before submission as the typesetter often cannot make corrections in these electronic files.

Reference to a publication should be made by the name of the author, the year of publication and, when necessary, by page numbers in the following ways:

... as described by Schmidt (1967)... ... as described in Durand & Katamba (1995) ...

... as referred to by Hoover (1967, 56–78; 1976, 43) and in Kaye et al. (1990)...

... mentioned by several authors (Elgar 1978, 77; Williams 1981, 154–156)...

An alphabetically arranged **list of references** should be presented at the end of the article as follows. All first names of authors are to be written out in full (first names of editors can be abbreviated):

For marking subsections decimal notation should be applied. Do not use more than four digits if possible. Citations in the text should be enclosed in double quotation marks (“ ” in case of a paper written in English, „ “ in German and « » in French). Examples within the text should be marked in italics. Meanings are to be rendered between inverted commas (‘ ’). If glosses are given morpheme by morpheme, the initial letter of the gloss should be placed exactly below that of the example. Conventions for such interlinear glosses should follow the “**Leipzig Glossing Rules**”, for details, check out <http://www.eva.mpg.de/lingua/resources/glossing-rules.php>; for an example, see (1a) below:

- (1) a. A sólymaid elszálltak.
 the falcon-POSS-PL-2SG fly-PST-3PL
 ‘Your falcons have flown away.’

Examples can be referred to in the text as (1a), (1a–d), etc.

One proof will be sent to the author. Please read it carefully and return a list of your requests for corrections by email to the Associate Editor **within one week**.

Open Access. Authors can use the optional Open Access publication model for a specific publishing fee. It is an option for the author to pay the Article Processing Charge (APC) and have the final full text version of his/her article published as an Open Access one. The full text of an Open Access paper is freely accessible through the official website of the journal. These papers are also published in the printed journals as well as all the traditional ones. The peer review process and the quality requirements are the same in case of both traditional and Open Access manuscripts. Both accepted new manuscripts and papers published earlier can be Open Access. The APC of an Open Access article is 749 EUR including VAT but it can be even less. Akadémiai Kiadó offers discounts for Hungarian authors, institutions of low- and middle-income countries and Editorial Board members. Discounts may not be combined. The above fee does not include any normal (excess) page fees and colour charges. By signing the Open Access License Agreement and paying the APC, the Author retains the ownership and further rights related to the Article while ensuring the wide accessibility of the Article in the written and electronic media controlled by Akadémiai Kiadó. See www.openart.com for details. Should you have any questions, please contact the editors of the journal.
